## **CASTING NOTICE**

### **INTERNATIONAL TV SERIES: 'ALIEN INVADERS IN 3D' 2 HOSTS**

**Network:** OLN; CITYTV; G4  
**Shoot:** SPRING/SUMMER/FALL 2011  
**Location:** TORONTO AND AROUND THE WORLD  
**Producer:** PETER ROWE PRODUCTIONS INC. AND  
PINEWOOD FILMS INC. (Producers of ANGRY  
PLANET)  
**CASTING:** Sue Skinner-SMS Concepts Ltd.

#### **SERIES PREMISE:**

'ALIEN INVADERS IN 3D' is a new international TV series that takes two hosts to the far corners of the world, to get up close and personal with the most loathsome, parasitic, invasive insects, reptiles and creepy crawly creatures.

Imagine "Dirty Jobs" meets "The Rick Mercer Report" except instead of trying out ice sailing the hosts climb into bed – with bed bugs.

The series' two outgoing and amusing hosts (25-35) play with pythons and parasites, race against dung beetles, endure the bites of a multitude of mosquitoes, let tarantulas crawl across their faces, go crossbow-hunting for Asian carp up the Mississippi, mingle with Killer Bees heading north from Brazil, engage with the Candiru Fish and Electric Eels of South America – all the while entertaining viewers with fascinating, little known facts and fiction on all these beasties.

These hosts are game to travel the globe, hang out in caves, tents and jungles in order to schtick it up with the world's most invasive creatures.

#### **THE 2 HOSTS (1 MALE; 1 FEMALE; age 25-35)**

- Fearless!
- Funny!
- Reptile, Amphibian and Bug Lover!
- Willing to get up close and personal with slithery and creepy crawlers!
- Available to travel the world for several months!
- Extreme sports experience an asset but not essential
- Comfortable on camera.

- LIVE IN ONTARIO

**MUST REQUIREMENTS FOR CONSIDERATION:**

- PHOTO AND RESUME (emailed)
- **A MUST:** 2-3 MINUTE VIDEO:

Find someone (or a pet store) that will let you play with an exotic beast. We recommend a tarantula, a snake or an iguana – but the choice is yours. (hint - a kitten won't get you the gig).

Please do NOT select an exotic creature that you are allergic to NOR one dangerous to your well being.

VIDEO: Chatting directly to camera, with your creature in hand, as if it was an actual segment on the show, give us your best amusing 'bit' that includes amazing true trivia about the beast. We'll leave the writing to you, but keep the "invaders" theme going – while tarantulas aren't invading Toronto, they could climb into your townhouse if you lived in Arizona.

Videos to be shot, by a friend, with a camcorder and with a lot of available light.

Videos MUST be at least 50MB and in mov, avi or mpeg format and emailed through the free sites, [www.yousendit.com](http://www.yousendit.com) or if over 100MB, through [www.megaupload.com](http://www.megaupload.com)

**DEADLINE FOR EMAILED SUBMISSIONS: MONDAY NOVEMBER 8<sup>TH</sup>**
